

# Touring the fields at Fields Farm

**Jim and Debbie Field** are growing fields of plenty on their 10-acre farm located cheek by jowl with residential neighborhoods in southeast Bend. They have been growing vegetables on their Fields Farm for more than 30 years, supplying their Consumer Supported Agriculture (CSA) clients, Bend Farmers Market, local grocers and restaurants with sustainable fresh produce. They are also recent members of High Desert Village.

The Fields graciously hosted a HDV tour of their farm on July 30. They shared how they use sustainable, pesticide free, soil building methods to produce the crops they grow. You can learn more about the farm at their website located here: <https://fields.farm/> On the site you can learn what is available for purchase at the farm and how you can become a CSA client.

Thank you, Jim and Debbie, for hosting the tour, and thanks to Irene Nuzzo of the Good Times Team for arranging the visit.
